### Pinkie Spinning Wheel - Single Treadle

\$173.95

**Babe's Pinkie Spinning Wheel** was born April 22, 2001. It was conceived to be a spinning wheel for children. However, after the first show it went we found because it only weighed 4 pounds that it would have a lot of other uses. It was named **Pinkie** because it was light enough to be picked up with your little finger. Some are keeping it just to do the plying of yarn on it.

**Pinkie** is made with 3/4" Furniture PVC and uses a 12" OD wheel chair wheel which has two ball bearing so it turns very easily. The orifice is 20-1/2" from the floor. It comes with 3 Babe standard bobbins whose ratio is 3 1/4:1, 2 lazy kates, Spinning Babe's Booklet, a 1/4 pound of Brown Sheep roving and Babe's Sure Foot to keep it from sliding on the floor. The wood treadle is for the smaller foot, measures 4" wide X 9" long; however, I found the larger foot will work if you turn the wheel so your foot will be on the diagonal of the treadle. Measures 15" X 10-1/2" X 22-1/2". Have fun spinning yarn on your Pinkie.

Optional items for the **Pinkie**:

Plying Bobbin which will hold 8 ounces of fiber.

Two Speed Bobbin with ratios of 4 1/4:1 and 11 3/4:1 (It is in the parts department list - this is the 21:1 high speed bobbin.) This is being used a lot for spinning angora.
